

Hydraulic Power Unit Offer Form for Modernization and Refurbishment

Please complete the fields below:

Basic Specifications

Pump flow *: _____ L/min
Motor size *: _____ kW
Tank capacity *: _____ L
Hose connection *: _____
Solenoid voltage *: 48 DC (Standard) 12 DC 24 DC 110 DC
 110 AC 230 AC Other
Power supply: Single phase 3-phase (for small motors)

Additional Specifications

Cylinder diameter: _____ mm
No. of cylinders: _____
Suspension ratio: 1:1 (Direct) 2:1 (Indirect)
Nominal load: _____ (Standard Weight in kilograms)
Lift speed: _____ m/sec
Existing valve block: Yes No
Valve block ref/model (if above yes): _____

Notes / Additional Requirements

Please provide any additional information or any specific details of this project:
